DECLAN COOKE

BUSINESS ANALYTICS & REPORTING CONSULTANT

declanjcooke@gmail.com • 027 220 8645 • Auckland, New Zealand • linkedin.com/in/declanjcooke

PROFESSIONAL SUMMARY

Dedicated Business Analytics Consultant skilled in designing scalable data pipelines, developing impactful BI solutions, and optimizing SQL queries to deliver high-quality, accessible reporting. Proactive in identifying trends, streamlining data engineering workflows, and translating complex datasets into actionable insights. Strong focus on client and stakeholder collaboration, technical training, and clear communication. Thrives in dynamic consulting environments, always looking for ways to improve, adapt, and deliver meaningful value through data.

WORK EXPERIENCE

FIRN Analytics — **Apr 2026 – Present**
Business Analytics Consultant — Auckland

- **Multi-Industry BI & Insights:** Delivered end-to-end Power BI reporting, dbt data modeling, and actionable insights for major enterprise clients across broadcasting & media, national gaming & lotteries, and manufacturing sectors.
- **Enterprise Data Governance:** Architected and executed a large-scale Role-Based Access Control (RBAC) security framework in Snowflake, deploying complex permission scripts with zero errors on initial rollout to secure client data.
- **dbt & CI/CD Pipeline Optimization:** Built and optimized client dbt and Coalesce data transformation environments in Snowflake, standardizing modular models, automated data quality tests, and CI/CD deployments.
- **Marketing Pipelines & Enablement:** Engineered automated analytical pipelines integrating Google Ad Manager data and designed a "Fundamentals of Coalesce" training curriculum to upskill external clients.

Kotahi Logistics Ltd — **Aug 2024 – Mar 2026**
Reporting & Insights Analyst — Auckland

- **Internal Promotion & Leadership:** Promoted from Analytics Engineer to Reporting & Insights Analyst in recognition of strong stakeholder engagement, impactful reporting solutions, and driving data accessibility.
- **Cloud Analytics Engineering:** Engineered Power BI solutions with Databricks and Apache Spark to uncover customer-management and operational insights, directly empowering strategic business decisions.
- **Embedded Portal Analytics:** Developed and embedded Power BI dashboards within the Salesforce Customer Portal, significantly improving stakeholder access to insights and accelerating decision-making.
- **Cloud Migration & Adoption:** Led cross-functional workshops and training during a major cloud migration, driving adoption of new Power BI reports and championing data as a product across the business.

Analytics Engineer — **Oct 2023 – Aug 2024**

- **Workflow Automation:** Developed Power BI dashboards and Power Apps solutions to automate reporting workflows, eliminating 24 hours of manual processing each month.
- **Self-Service Data Modeling:** Designed and launched curated dimensional data models, empowering business users with self-service analytics and reducing reliance on ad-hoc report requests.
- **Cost & Data Quality Optimization:** Led multi-source logistics analysis assessing data completeness, forecasting accuracy, and timeliness, driving direct-from-carrier integrations at significantly lower cost.

Data Moving Ltd — **Jan 2023 – Oct 2023**
Data and Reporting Analyst — Auckland

- **Data Warehouse Modernization:** Led the adoption of Power BI for a large-scale data warehousing project, utilizing SQL for data cleansing, migration, and analysis to transition legacy reports into modern dashboards.

Acodata Ltd — **Jan 2019 – Jan 2023**
Data Analyst — Christchurch

- **Product & Customer Analytics:** Analyzed customer engagement trends, market data, and performance analytics to scope and deliver digital strategies, website designs, and application developments.

Freelance Film Industry Camera Technician — **Jan 2012 – Jan 2019**
1st Assistant Camera — Auckland

- **High-Stakes Technical Execution:** Collaborated closely with Department Heads in time-sensitive environments to translate creative vision into technical execution while adapting to rapid deadlines.
